

Homework 4

1. Install a wallet for such as Braavos or ArgentX.

Braavos [Extension](#)

ArgentX [Extension](#)

Set up an account on Starknet using the wallet.

How does this differ from your experience with accounts and wallets on Ethereum ?

2. Cairo exercises

Complete program exercises 1 to 7 in this [repo](#)

You need to clone the repo and follow the instructions in the README.

You need to use protostar to test your answers.
